

BIOHK2023 Hong Kong International Biotechnology Convention

The Largest Biotech Convention In Asia

INTRODUCTION

BIOHK2023 includes Exhibition, Conference and One2One business matching. It provides an ideal opportunity to promote your business or organization to investors and industry leaders from all over the world. Being Asia's World city and a member of Guangdong Hong Kong Macau Greater Bay Area, Hong Kong is a perfect place to host this global mega biotech event, to provide the global biotech stakeholders a permanent convention to meet every year in Asia.

BIOHK2023

香港國際生物科技展

EXHIBITION | CONFERENCE | ONEZONE PARTNERING

Organizers By:

Exhibition *SHOWCASE AND CONNECT*

The physical exhibition is a platform for early-stage spin-outs and established firms in all areas including healthcare to pitch their visions backed by the strength of customized branded exhibits. It's a perfect opportunity to make meaningful in-person business connections with senior-level management and investors. Filled with the latest trends, technology, companies, and breakthrough ideas in biotechnology and pharmaceutical.

Conference & Pitch Sessions *SHARE AND INSPIRE*

A platform for investors, entrepreneurs, leaders and international scientists to have in-depth discussions and share on latest regional and international research as well as findings. You can exchange ideas, professional experience across a wide range of topics in different sessions, panel discussions and podium talks. There is no language barrier as the conference will provide simultaneous interpretation supporting all English, Cantonese and Mandarin.

One2One Partnering *PROMOTE AND ESTABLISH*

Bringing the world together to navigate and capitalize on the opportunities in Hong Kong as a burgeoning biotech hub, the One2One Business matching intends to aid attendees in identifying and connecting prospective partners in the form of investors, analysts and partnering companies for future collaborations. Align your goals and maximize your returns with other parties in the future of biotech.
